Greener account of March 14th 1922 with details of the gun and a price of 148 Pounds 8 shillings and 9 pence. Also enclosed is a 2003 letter from Graham N. Greener who writes that this gun was started in 1914 but few sporting guns were made or finished during WWI. Many people ordering a gun in 1914 did not return from the war and a gun lay dormant as an "Acton in the white" for many years until a new customer was found wanting a gun of that specification. The "Facile Princeps - Royal" was not so common as the "G" Self - Acting and Unique Ejector Model Royals. Great to have so much provenance with this gun. #
